Who was who.

PREFACE

THIS volume contains the entries, as they appeared in *Who's Who* for the last time, of persons who died during the years 1916 to 1928 (inclusive), but in a few cases the biography has been altered to show a title received or inherited shortly before death.

A small number of biographies will be found without the date of death, as in some instances it has been found very difficult to trace these and to continue research for them would have involved postponement of the publication of this volume. The Publishers will welcome any definite information from readers regarding such dates.

October 31*st*, 1929.

EXECUTORS

The task of finding a capable and responsible person who is willing to act as an executor or trustee is not easy. In addition, an executor so appointed is no less liable to die than the testator himself, in which event the whole problem is raised anew and fresh expense entailed—possibly at an inopportune moment.

The Westminster Bank is willing to undertake such duties, and in doing so provides several distinct advantages. It is permanent, and it is accessible; expert business knowledge is assured; there is no possibility of loss by fraud or unauthorized investments; and absolute secrecy is observed. So far as possible the Bank is prepared to employ the family Solicitor

A Book giving conditions of appointment may be obtained from the Trustee Department, 51 Threadneedle Street London, E.C.2
